

# TOOL TO STOP BAD FRACKING BILLS

February 19, 2016

Cris Costello of Sierra Club Florida has sent out the following important message. Fracking would be a disaster for Florida and it is entirely unnecessary. Fracking is only about making a few people rich. The United States of America does not need this activity.

**From:**

**Date:** February 18, 2016 at 1:58:30 PM EST

**To:** undisclosed-recipients;;

**Subject:** Another tool for stopping the bad fracking bills!

**Want to stop the bad fracking bills?** A number of FCWD partners have gotten together to pen this letter to make it easy for you – you can use it to make your voice heard!

Its also is a great primer on why these bills are so dangerous!

Attached you'll find a pdf and a word document. The pdf is ready to print out and sign by individuals. The word doc can be used to paste into an email or to modify if coming from an organization.

If you can print it out and fax or mail it to your senator and Senate President Gardiner it will make more of an impression than an email message.

You have a few days but time is of the essence; the next committee meeting is probably Thursday, February 25.
